Facility Camera Enhancements Project RFP

Official Responses to Questions from Potential Respondents

1. **Question:** Are the contacts associated with each site the person we should contact for site visits?  
   **Response:** Yes, the contacts listed are the persons that should be contacted for each site.

2. **Question:** Are we bidding on the garage and the facility?  
   **Response:** It’s terminals only.

3. **Question:** I am not able to reach anybody from most of the phone numbers on the RFP. I assume it’s because most people are working from home or furloughed. Any idea when someone will be available, or another point of contact?  
   **Response:** An updated list was provided, and the terminal contacts are aware of the need to be available to vendors.

4. **Question:** The bid specs call for participation in the mandatory pre-bid Zoom meeting on April 17th. Is this still a requirement? Or can we get an exception so we can proceed and still provide a bid?  
   **Response:** The RFP was unintentionally advertised beyond its expiration date. For this reason, Greyhound made the exception to honor package requests beyond the date of the mandatory pre-bid meeting. The requirement for the mandatory meeting was dismissed and an excerpt from the meeting transcribed and added to the addendum for all. The original deadlines were extended as included in the addendum.

5. **Question:** Would it be possible for getting an extension of the bid date and dates for site visits?  
   **Response:** At this time, no additional extensions will be made.

6. **Question:** It appears that the RFP has a Buy America Requirement. Could you please confirm this and that a Buy America certificate will be required?  
   **Response:** Yes, a Buy America certificate is required.

Proposals are due at 4:00 PM CDT on May 18, 2020 to the following email address: bids@greyhound.com.
